

University of West Florida

Capston Project In Data Science IDC-6940 | Professor Dr. Shusen Pu

Edwin Quijano

Monday, September 1, 2025

- 1. (2 points) Introduce yourself and meet your classmates: Please upload/insert a screenshot here.**

- 2. (2 points) Join the course Discord channel. Please upload/insert a screenshot here.**

3. (2 points) List a tentative topic or method that you're interested in exploring during this course. You have the flexibility to change it up until week 5.

4. (5 points) Form a team with no more than 4 members. List your teammates' names in the homework.
You can adjust your team anytime before week 5.

5. (5 points) Please review and study the following two methods for presenting your progress and research report:

6. Write your report on Overleaf. You can copy or download the template from:
<https://www.overleaf.com/read/tgrddxgwrhst#ff33cc>.

7. Write your report on GitHub. The template is available here: https://github.com/capstone4ds/capstone4ds_template. You can find instructions for setting up the website on the same page.
Please indicate which method you will use for this course.
